COULTER BROS

PROHIBITION.

The following extract from Mr. Smiley's speech before the Nashville farmers' and dairymen's convention, is the clearest statement of the creamery business that we have seen. Gen. Jackson introduced Mr. B. E. Smiley, of Missouri, who delivered an address on creameries. He said, among other things:

The creamery business has vastly improved within a few years, and is now operated in a skillful manner, and much more profitably. Under the former system, the farmer was required to furnish the entire milk. But the inventive genius of the late J. Fairbanks of Chicago, wrought out a means by which this great inconvenience and waste is obviated, and the business made plain and easy by the Fairbanks system, or cream gathering process, which requires only the cream, and the milk being sweet when the cream is taken possesses all the ingredients for making butter and cheese in calves and pigs, and this, to the farmer, is a matter of vital importance. Under this system an average cow will furnish \$35 worth of cream per year. We can safely estimate her calf at \$10 making the aggregate product \$45 per year. Three acres of land will furnish ample feed to support one cow during twelve months; consequently we have \$15 per acre for the use of our land, the soil not being washed away, and the growing better and better every year.

Resolved, That it is the sense of this convention that the chairman of the committee on resolutions, submit the following as their report: Whereas, The state prohibition convention, assembled at Nashville on the 22nd of May, 1884, composed of citizens of the highest standing, having considered the question of prohibition, do declare most solemnly our unalterable and fixed determination to suppress the evils of intemperance, and which we believe can only be done by prohibition.

Resolved, That the purpose of this convention is not to further, in any special manner, a discussion of evils growing out of intoxicating liquors; they, if not admitted by all men, are recognized as evils, and it is the duty of the people to suppress them. Resolved, That the object of this convention is to put on foot a remedial movement for the state of Tennessee, and the sense of this convention that nothing short of absolute prohibition—the prohibition to include the making and the importation of such liquors as a beverage should be prohibited. But we recognize the fact that so radical a change in the law, and so sensibly affecting the habits of the people, ought not to be made except by the people themselves, and that by an election in which every man in the state should be allowed to vote. Therefore we are in favor of the submission of the amendment to the constitution—and that the legislature to be elected this year should be asked to pass, and have submitted to a vote of the people, this question, to wit: A constitutional amendment embodying the principle of prohibition. It is the sense of this convention that this question should be submitted to the people at the next general election, and it is not for the best interests of the state that it should, in any sense, be made a party question, or that the friends of prohibition should antagonize political parties by running a prohibition ticket, but it is their right and consistent wish, the good of the state and the best interest of the people to have candidates for the legislature, of all parties, asked respectfully to declare their position on the question of submitting constitutional amendment on this subject to a vote of the people, the people to decide at the ballot-box and at a special election.
